The Men's Cash Store

Attention!

Ladies of Claresholm and District:

We have received a sample line of Ladies' Fibre Silk Skirts from the largest factory in Canada. They come in 24 shades, prices \$11.50 and \$13.50 each. We will take orders for 30 days only to introduce goods, at above prices. We do not intend to carry ladies' goods and are only doing this to assist factory to introduce their goods, we being well known to them.

Yours for business,

C. J. BRAREN

Quality Bread

There is a peculiar something about Barber's Bread that makes it stand out prominently in many homes in this town—it has a tastiness that causes the children and grown ups to marvel at its goodness. The answer is Quality, and that is because the best wheats and other ingredients of the highest nutrition, combined with modern methods of baking go into every loaf. We serve quite a number of the citizens daily, and we can serve you too. Buy a loaf of our bread today and you will appreciate this. Our cakes and pastries are equally good, and prices are reasonable.

to file your

Income Tax Return

on or before the 30th of April, 1920

Dominion of Canada

Department of Finance

ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—

1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.

FARMERS AND RANCHERS must use Form T 1A.

CORPORATIONS and joint stock companies must use Form T 2.

Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per centum of the amount of the tax payable. Any return, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable to summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months imprisonment or to both fine and imprisonment.

General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly and avoid penalties.

Address INSPECTOR OF TAXATION,
CALGARY, ALTA.

R. W. BREADNER,
Commissioner of Taxation.

CLARESHOLM LOCAL NEWS

Maurice Wall sold his ranch near Macleod to Lee Elgin last week.

Country folks are complaining of very poor service on the telephone line these days.

William, the small son of Geo. Gibson, broke his leg Wednesday by jumping from a chair.

Odin Berg returned from Texas as this week. He has spent the winter threshing with Ole Finstad.

Principal Hooper spent several days in Edmonton consulting with the principals of the other agricultural schools of the province.

The new manager of the Bank of Commerce has at last arrived in town and relieved Mr. Halliday of the responsibilities of management.

Weather such as we have been having is a pretty good indication of lots of moisture this summer. Late springs have always meant big crops in Alberta.

Hunted by men, and haunted by women, she played the game and won. See Pauline Frederick in "The Woman on the Index" at the Rex next Monday and Tuesday.

On Wednesday Roy McGee had Joe Cheadle up before Justice of the Peace Holmes on a charge of assault. The accused was found guilty and fined \$20 and costs.

J. Wilson of Nanton was in town on Wednesday, and sold his house, recently purchased from Mr. Crawford to Mr. Garis. Mr. Garis will move to town next week.

W. Ryan returned from Texas on Wednesday morning. He reports having purchased a farm there. After settling up some business matters he will return to commence operations.

Mr. and Mrs. R. Olmstead returned from Minnesota where they have spent the winter. They have taken charge of the farm again and Mr. Olmstead is again moved into his town home.

Mrs. Isaac Leppard entertained the Sunshine Club on Wednesday. A goodly number of members were present. The needlework for sale later was begun. All members wishing work please see Mrs. Harry Mosley.

Single Comb White Leghorn eggs for hatching, for sale. Our flock laid 32 dozen in January, 55 dozen in February, and 81 dozen in March. Also a few cockerels for sale.—Thor Brown, Phone 413.

Mary McLaren, in "The Pointing Finger" at the Rex next Friday and Saturday, is the story of a girl who runs away from an orphanage, is accused of a crime, clears herself and eventually marries into millions. It's a Universal picture.

A Union Easter service will be held in the Methodist church next Sunday evening. Special music has been prepared by the united choir and a very interesting and profitable service is expected. Rev. Mitchell and Rev. Locke will both take part in the service.

Mr. Gamble who is working for S. L. Fraser almost lost the sight of his left eye last Monday. In trying to hit a troublesome steer the lash of the whip struck him in the eye. Dr. McMullen sent him to Calgary to a specialist. Fortunately the eye will be saved, although the sight is likely to be impaired.

Mrs. Crawford and family left on Wednesday night for their new home at Olympia, Washington. Mr. Crawford has purchased a 120 acre dairy farm. He has a seven acre apple orchard which gives the place its name of "Red Apple Farm." He reports that he is delighted with everything. Fraser & Peck put through the deal.

They say that truth is stranger than fiction, but in the play "The Pointing Finger," starring Mary McLaren, the American beauty of the screen, you will see a story of false accusation and attempted robbery, with little Mary as the unfortunate victim, that rings true in every detail. With a kind Providence protecting the weak, there is fashioned here a story of fate that's a genuine gem. Be sure to see it at the Rex next Friday and Saturday. It's a Universal picture.

Mrs. Louise McKinney, M.L.A., is leaving for England in a few days to attend the world's temperance convention, April 16 to 23. She is vice president of the Dominion W. C. T. U., and will represent that body. She left Edmonton on Wednesday night and will not be present at further sittings of the legislature, since she has to hasten to New York to catch the last boat that will land her in Britain in time for the conference. Afterwards Mrs. McKinney will tour Scotland and Wales, making addresses in the dry districts.

Miss Eva Moffatt, the chief clerk at the Demonstration Farm College, in an experiment with electricity put her father's house in darkness the other night. Miss Eva had listened to an address on electricity and when she went home she thought that she would try some of the experiments which had been taught in the college. According to report Miss Eva found out that by making a contact one wire with angler with a good ground wire will force her father to walk down town in a blizzard to get new fuse plugs to replace the ones that were blown out. The next experiment will take place about Monday.

ATTENTION!

Claresholm Creamery Stockholders.

A meeting will be held on Saturday May the first, at 2:30 p.m. at the Parish Hall, for the purpose of receiving the auditor's report for 1919 season, and for the election of the following officers: President, Vice President, Secretary and Treasurer, and four Directors.

ABOUT YOUR CHILBLAINS!

What are they? A mild form of frostbite—chilling of the part to such a degree that inflammation is set up, causing a bluish, itchy, sensitive irritation and even swelling. Zambuk cures chilblains by drawing out the inflammation, thus ending the pain and irritation and reducing the swelling.

Miss Anna Leppard of St. John's, Ont., says: "I suffered again and again from chilblains and used many remedies, but nothing gave me any ease until I used Zambuk, which, after a little perseverance, completely rid me of this painful affliction."

Regular applications of Zambuk will prevent a recurrence of the trouble. Keep it handy. 60c. box.

Zam-Buk

Canada's Status

Canada's international status has been determined by its inclusion in the League of Nations as a distinct national entity, possessing the same standing and voting power as the other sovereign nations, and obligated to assume the same responsibilities and discharge the same duties as are laid on all other nations.

This is an almost revolutionary change in status to that existing prior to the Great War. The League of Nations, 1914, Great Britain declared war on Germany, Canada, in common with the whole British Empire, was automatically at war. The Canadian Parliament did not make a declaration of war; it merely took official cognizance of the fact that the war had been declared. It remained, however, for the Canadian Parliament to decide the extent of Canada's participation in the war.

In future, however, as a full-fledged member of the League of Nations, Canada will have a voice in deciding issues of peace or war. Canada's vote will count just as effectively as the vote of Great Britain, France, Italy or any other country.

It is interesting to note that, whereas formerly Canada had no foreign policy, because it had no say in foreign affairs, it must decide issues of peace or war for itself.

This change in Canada's international status inevitably calls for some change in its position with respect to the British Empire and in the relations hitherto existing between this Dominion and Great Britain. There are certain anomalies in the present relationship which must be corrected, but which in no wise weaken the Empire, or tend to Canada's independence (coming from); on the contrary, such changes as are necessary should have the effect of adding strength to the Empire.

Recognized as a sovereign nation, the League of Nations, Canada will have direct relations with all other nations and it is almost certain to follow that this Dominion will have its own accredited representatives at the capitals of other countries. The first step in the evolution of this policy is being taken in the appointment of a Canadian Minister to Washington.

In the past, if the Canadian Government wished to make to the United States Government it was necessary to transmit them to the Consul Office in London, who in turn handed them over to the British foreign office, which sent them on with instructions to the British ambassador at Washington. Replies to such representations had to return via the same route, and all negotiations between Ottawa and Washington had to be conducted through London.

In future, we are to have direct dealings with the United States Government through a Canadian Minister at Washington.

Other important constitutional changes are up for discussion at Ottawa. Canada derives its constitution from the British Parliament, through

the British North America Act. Any alteration or amendment to that constitution can only be effected by the British Parliament upon address of the Canadian Parliament. It is now proposed that Canada shall be given full power over its own constitution, to amend it from time to time as the people of Canada conceive in their own interest it should be amended and without recourse to the British Parliament. Australia and New Zealand possess such control over their constitution, and the Dominion Minister of Justice is in negotiation with the several Provincial Governments with a view to having representations made to the British Government and Parliament for the conferring of similar powers upon Canada.

The view has long been held by many Canadians that a change should also be effected in our system of judicial appeals. At present the final court of appeal for Canada is the Judicial Committee of the Privy Council in England. There is a growing belief that, so far as Canadian cases are concerned, the Supreme Court of Canada should be the final court of appeal—that it should be supreme in fact as well as in name, and that all the expenses and delay inseparable from appeals to London should be abolished.

Slowly, but none the less surely, Canada and the other self-governing Dominions of the British Empire seem to be moving towards the ultimate goal of independence in all foreign affairs, just as they have long been independent in all domestic matters. This does not mean that Canada will be free to secede from the British Empire, that Canada is now a nation, a partner of Great Britain, occupying a position of equality with Britain in all things. It means, rather, and no one disputes it, that existing anomalies whereby in some respects the British Government, Parliament and the British Empire exercise a veto over Canada must be removed.

Evolution gradually, the apparent end seems to be the constitutional establishment of Canada and the other self-governing Dominions as sovereign nations, all owing allegiance to the Crown, but working the same flag, working together in cordial co-operation for the good of all, but each maintaining its own affairs in its own right, the League of British nations within the League of Nations.

Flax A Popular Crop in Alberta

Will Receive More Attention Owing To Expansion on Basis of Government.

The growing of flax in Alberta, it is expected, will receive more attention than ever before, primarily owing to the experiments that were made last year by some growers on behalf of the Imperial Government. The fact was that the shortage of flax fibre for the manufacture of linen in Ireland, that this product could with advantage be grown in western Canada. The experiments were most satisfactory owing to the fact that the flax was too late in maturing on account of the exceptionally early frosts, but while this was so it gave rise to the suggestion that the fibre could in any case be used for the manufacture of linen twine.

A special threshing machine has been invented which while dealing with the seed in a very thorough fashion does not injure the stems. With the flax seed at about \$5.15 a bushel of fifty-six pounds, and what could be obtained for the fibre, which it is estimated would be at least \$10 a ton, Alberta farmers are keenly interested in flax growing.

One present Alberta farmer alone is seeding 1,000 acres this year with this product.

A woman can get a man to do anything she wants him to if she has tact enough to induce him to talk about himself.

Canada's Relations With West Indies

Will Be To Our Advantage To Cultivate Their Friendship

Sir Robert Falconer, K.C.M.G., president of the University of Toronto, writes to Montreal to emphasize the importance of the work that T. B. Macanally, of this city, is doing in trying to create better relations between Canada and the West Indies. "Today," says President Falconer, "some of these islands are almost dependent economically upon the United States. It is the trend of all their trade, including that of British Guiana, might easily and quickly be diverted to Canada. If Canada can build the West Indies and British Guiana to herself by trade and personal intercourse, their future relations to the Dominion of Great Britain may be left to take care of itself. The trade of the West Indies will be of great advantage to us, and they could with much profit produce for us."

"Their trade and population are growing rapidly. Moreover, the social status of the people is rising rapidly. Under scientific management the future of these countries with their fertile soil and natural resources is bound to be prosperous. It will be to our advantage to cultivate their friendship, and to our interest to be generous to them in trade."

"It would be good policy for the Dominion Government and the Canadian boards of trade to direct the attention of the Canadian people to these very near neighbors of ours within the Empire."

"Diamond Dye" Turns Faded, Shabby Apparel Into New

Don't worry about your wardrobe. Use "Diamond Dye," guaranteed to give a new, rich, fadeless color to all fabrics—whether they be wool, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings—everything.

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

The Submarine Failure

How Great Britain Successfully Grappled With the War-Time Menace

Mr. Archibald Hark, recognized in the world as a naval expert of great judgment and foresight, has been writing of late upon one of his favorite topics, the submarine, and he points out that, at first, it appeared as though it might succeed, for it was a departure which took not only the life of the man, but the life of the world, by surprise. No provision had been made by either the British, French, Italian, American, Japanese or other naval authorities for countering the submarine employed as the Germans employed it. Lord Jellicoe on the emergency was recalled from the Grand Fleet, and on becoming First Sea Lord, this officer, in association with Vice-Admiral Sir Alexander Duff and other experienced seamen whom he brought with him from the North, devoted himself to the question of countering the submarine. The extent to which the submarine was mastered is partially reflected in the figures of the sinking of merchant tonnage. In April, 1917, 136,000 tons of British shipping were destroyed, but in October, 1918, with the same tonnage at risk, the sinkings had fallen to 54,377 tons.

Alberta Potatoes for California

Recognition of Quality of Produce Grown in Western Canada.

New markets for the potato crop of Alberta have been opened up by the shipment of a whole carload of potatoes consigned from Edmonton to San Francisco.

This shipment practically constitutes the first consignment of the kind ever sent from Edmonton direct to the Pacific Coast. While eastern markets have been plentiful in the past direct orders for potatoes from California points have seldom reached this city and the placing of such direct orders for potatoes from San Francisco is a recognition of the quality of produce grown in the province.

The first public performance on a piano was given in Edmonton 150 years ago.

Many a train of thought carries no freight.

A SPRING TONIC AIDS EFFICIENCY

Lay Foundation of Good Health Now By Building Your Blood and Strengthening Your Nerves

The good old-fashioned tonic of a tonic in the springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying season for the body, and it is not in rugged physical health. Many men, women and children go through the winter on reserve strength. They have stored up during the sunny, summer months, and grow increasingly weak and languid as the spring dawns. A tonic at this time does much for the nerves at this time will do much for the nerves, by putting color in the cheeks and banishing that tired feeling that worries thousands of people this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you are not getting enough sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine there is no better tonic than the Williams Pink Pills. They build up tone and enrich the blood which circulates through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, dependent men.

Mrs. J. N. McNeil, Glace Bay, N.S., says: "For years past my health has never been without Dr. Williams' Pink Pills, and I have good reason to praise them. Following an attack of grippe, I was left in a badly run-down condition. I had no energy and felt so weak I could scarcely get about the house. I was taking medicine, but it was not helping me. A friend advised me to try Dr. Williams' Pink Pills, and I was soon able to do all the work with the best of results. My appetite improved, my strength returned and I was soon able to do all my household work. I now use the pills every spring and find that they do strength bringing tonic. I have no more grippe, and my friends who have used them with good results."

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the system through their use in the most diastolic and purest of influences. They also trouble the poor blood, such as anemia, rheumatism, indigestion and the generally worn-out feeling that affects so many people, disappear. You can get them free, through any dealer in medicine, or by mail at 20 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

FREE PREMIUMS 2 for 1

The Right Course

Work of Instructing British Columbia's Farmers of Tomorrow

Agriculture under competent teachers along practical lines is taking an increasingly important position in the curriculum of the public schools in the different municipalities of the lower Fraser Valley of British Columbia.

At the present time the class in agriculture of one of the high schools are taking a course in the proper feeding of live stock and are getting an insight into the different values of the various kinds of feeds for cattle, horses and sheep.

Last month the pupils were giving useful knowledge about soils, their properties and fertilization. Ten schools in the same district are busy preparing plans for the school gardens. Poultry raising and the care of calves and pigs are also on the school program.

The teaching of nature-study in the classrooms, the practical work of the school and home garden, and the ensuing contests of school fairs are all factors which tend towards the development of the boys and girls of the day, and will greatly assist them in becoming efficient farmers and farmers' wives in the coming years.

Minard's Liniment Cures Dandruff.

Canada's Tire Production

Figures made public in Montreal show that there were about 2,000,000 automobile tires manufactured in Canada last year, requiring about 8,000,000 square yards, or 12,000,000 pounds of rubber. The remainder came from the United States. Increased production of tire fabric is now aimed at.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off your corns, soft corns, or corns between the toes, and the hard skin calluses from bottom of foot.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops to the corn or callus, instantly at your disposal, then shortly after the corn or callus will be gone, callus right off, root and all, without one bit of pain or soreness. Truly a little bottle of Freezone does a great deal of good.

To Reform the Movies

The New York Presbyterian board of temperance and moral reform is planning to reform the "movies," and will issue a "white list" of approved pictures from time to time. They declare that a canvas among wardens and chaplains showed that most of the juvenile delinquency was due to moving pictures which exploited crime.

Some men even like to brag about what they owe.

PIMPLES ITCHED AND BURNED

Face Was Badly Disfigured. Cuticura Soap and Ointment Healed.

"Small red pimples and blackheads began on my face, and my face was badly disfigured. Some of the pimples became white others red and over and over there were places where the pimples were in blotches. They used to itch and burn terribly. I saw an advertisement for Cuticura and I tried them. They stopped the itching and burning. I used four cakes of Soap and three boxes of Ointment which healed me." (Signed) Miss V. A. Hayne, Stormont, N.S., Dec. 26, 18.

The Cuticura Talcum, consisting of Soap, Ointment and Talcum, promotes skin purity, comfort and beauty when used for every-day toilet purposes. For Sample Free Trial Box, address: Cuticura Dept., Boston, U.S.A. Sold everywhere.

FRIDAY, APRIL 2, 1920

During the year 1919 there were 10,000 deaths in the United States alone from automobile accidents, and doubtless many more than that were maimed for life in these same accidents. Yet nobody seriously advocates quarantining against the motor germ? Queer world, isn't it.

French officers in Germany are either seeing things or else the enemy are double-dealing right and left with the allies. Great quantities of arms and ammunition are said to have been found where there had been none and it is reported that an army of four millions is ready for mobilization. Evidently defeat has not changed the leopard's stripes.

March has not behaved in accordance with weather traditions this year. It came in like a roaring lion and went out the same way. The mid-March storms were the worst in years and were continued for weeks almost from the Arctic to the Gulf. This week has brought unseasonably cold weather with considerable snow and ice in this district. While these conditions preclude good crops, they are very hard on live stock which has come through a hard winter in a weakened condition owing to the feed shortage.

There appears to be rather a conflict of testimony on the matter of the prevalence of crime in Canada. Within the past several advocates of prohibition have vehemently asserted that crime has almost disappeared, that our prisons are to be closed for lack of tenants, and they ascribe this condition of affairs to the efficacy of our prohibitory laws. On the other hand, the pulpit of the First Baptist church, Calgary, on Sabbath last, Rev. H. J. Bingham stated that Canada in common with other countries has been "washed into a whirlpool of vice and crime," a "carnival of crime." Rev. Bingham names a number of causes which he believes are contributory to this condition, among them: "extreme poverty on the one hand and extreme wealth and sinful luxury on the other," "laxity in the matters of justice," "many unfortunate in prison who should be free while there are multitudes of criminals legally free who ought to be in prison," bad influence of commercialized amusements, increasing tendency to low standards of womanhood (thinks "it is true now for women who are called that have spent much time seeking to reform men to give their careful attention to the reformation of their own lives," increase of the drug habit, certain classes of moving pictures, the particularly scored "the films which feature murders, robberies, divorces, suggestive vaudeville, and which make light of the sacred marriage tie"). He characterizes these films as "the greatest crime breeders of the nation." Rev. Bingham even ascribes part of the increase in crime to prohibition, in these words: "Prohibition, it is true, will make cleverer crooks of those who are crooks, because they will have a clearer eye and a keener mind." So there you are, some assert that owing to liquor prohibition law crime has practically disappeared, while others, who are trustworthy, say that our country has never been in the grip of such a "carnival of crime." Alas! Just so. Take your choice.

MANY KILLED IN TORNADOES IN THE STATES

A total of nearly 200 people were killed in tornadoes which swept parts of eight states last Sunday. Hundreds more were injured, and the property loss will run into many millions of dollars.

Illinois suffered much damage and many deaths and injuries. Several of Chicago's suburbs were badly wrecked. The business portion of Elgin is reported almost wiped out.

Wisconsin, Indiana, Ohio, Missouri, Alabama, and Georgia and other states visited "disastrous tornadoes on Palm Sunday."

CLOSING EXERCISES OF SCHOOL OF AGRICULTURE

The school term of the School of Agriculture at Clareholm was completed on Friday, March 26. During the afternoon a Field Day was held and was well attended by the students and a number of ex-students. The many valuable prizes donated by the business men of Clareholm contributed much to the interest of the sports.

In the evening a large number of people gathered in the auditorium of the school to see the presentation of the diplomas to the successful candidates. Mr. J. C. Hooper, principal of the school, acted as chairman and cordially welcomed all who were present on the occasion.

The chairman gave a short history of the development of the Schools of Agriculture of Alberta, and the possibility of Clareholm, since their establishment in 1913 by the Honorable Duncan Marshall, Minister of Agriculture. These schools have proved so successful in meeting the need of agricultural education for the boys and girls of Alberta, that the Provincial Government has found it necessary to establish three new schools at Youngstown, Edmonton and Lloydminster, all of which will be in operation in the fall of 1920.

During the evening a very excellent program was rendered by the Misses Ramsey, Miss Moffatt, Miss Workman, and Mr. W. G. Moffatt.

Mr. W. J. Stephen gave the valedictory address and presented the diplomas to the successful students. The following boys received diplomas in the course of Agriculture: H. E. Baker, P. J. Brand, W. M. Dersch, A. H. Edwards, M. M. Merrill, J. R. Pierce, Mrs. Wharton, formerly Miss Ida Larsen, was granted a diploma in Household Science, having completed supplemental examinations during the year.

Mr. E. S. Hopkins M.S., in charge of soils investigations for the Province of Alberta, gave a very interesting address on "What Science has done for Agriculture." The lecturer showed what science has done in industry and along other lines. He then pointed out the marvelous accomplishments and inventions which science has given to agriculture in the relatively short period in which investigation has been carried on in agriculture.

The chairman then announced the winners of prizes offered by the Western Retail Lumbermen's Association, Winnipeg. In the department of mechanics for the best design of house, barn and farm buildings, the prizes were won by (1) P. J. Brand, (2) Wilfred Backman, (3) John R. Porce, (4) Arthur Edwards. In the department of Household Science for the best design of a farm kitchen, the prizes were won by (1) Miss Velina Stanger, (2) Miss Margaret Watson, (3) Miss Nora Mundell, (4) Miss Viola Hanly. The prizes given by the Calgary Co. of Canada for the best design of a dairy work together with an essay on the "Sanitary Production of Milk" were won by (1) W. S. Backman, (2) P. J. Brand, (3) J. B. Laurie, (4) Paul Matson. The prizes won in the various competitions of the Field Day were then presented to the respective winners.

The remainder of the evening was spent in dancing, the music being supplied by an excellent orchestra.

PLAY BALL! PLAY BALL!

A meeting will be held on Tuesday night at 8 o'clock in the school building for the purpose of organizing a baseball club for 1920. The object of the club will be to play strictly amateur ball and to join with the other towns along the line in a league. It is understood that Nooka, High River, Nanton and Staveland are all going to play amateur ball, and a league among these five towns would make a good league.

Everybody is asked to turn out and hear the secretary's report from last season. We have the equipment and all we need is a good live meeting in order to get the game humming and the boys warbling. Come everybody and say something about the grand old game. All you fans who wanted at this meeting, to make the game a hummer this summer.

Some of the speakers for the evening already signed are, Hearn

P. Walker, James Rice, W. I. McKenna, Jerry Reid, Dal Calhoun, Alex. New Moffatt, Sackson McKinney, Jenker Moffatt (Grey Beard), Pep Reynolds, Wyatt, Yankee Stubbins, Artist Redfern, Prof. Brann, C. J. Berg, Play Ball Amateurs, list but not least in (c) Tiny Murchison.

You're out! Next to bat!

Germans as Tricky as Ever

Paris, March 28.—Three thousand five hundred three-inch field guns have been found by the international commission in the vicinity of Berlin alone and altogether 12,000 of these guns have thus far been discovered through out Germany, as well as 6,000 airplanes intact. According to the terms of the treaty of Versailles, the German army should now have only 204 three-inch guns and no airplanes whatever. These discoveries and other information, it is possible, will lead the French authorities have caused considerable suspicion here.

Lutheran Services

Easter Sunday, April 4th:—Divine worship in Clareholm 11 a.m. and in Clear Lake School 3 p.m.

Sunday, April 11th:—The Lord's Supper will be celebrated at the morning worship in Clareholm at 11 o'clock. A mission festival under the auspices of the Balfour Lutheran Ladies' Aid at the Clear Lake school at 2 p.m. The St. P. S. meets in the church Sunday, 7:30 p.m.

A hearty welcome to these services.

H. G. Fattland, B.A., Pastor.

An agent from the Department of Agriculture, Mr. A. W. Murphy, Lethbridge, is in the district here, after the distribution of seed grain and feed for parties needing assistance. Persons requiring such should get in touch with him and letters addressed to him at Lethbridge will be of assistance in doing so.

"The Woman on the Index," the strange case of the woman who would not tell, Pauline Frederick, the featured star, is not an old movie in the Golden Era of pictures, and this is her first picture with that company. The newspapers and film critics acclaimed it the most thrilling drama ever produced. See her at the Rex next Monday and Tuesday.

The third annual Social Festival will be held in I. O. O. F. Hall, Clareholm, on Thursday afternoon and evening, April 29. Tickets are open to the schools of Clareholm and of the surrounding rural districts. Usual admission fees.

In the Matter of the Extra Judicial Seizures Act. And in the Matter of a Certain Chattel Mortgage.

Take Notice that there will be sold by Public Auction (on block) at the Town of Gratum in the Province of Alberta, on Friday the 10th day of April A. D. 1920, at the hour of 2:30 o'clock in the afternoon, the following goods and chattels, to-wit: All the furniture, dishes, bedding and fixtures constituting the contents of the Alberta Hotel at Gratum aforesaid, full particulars and view of which may be obtained at any time on application to Axel Anderson, the Bailiff in charge. Terms of sale cash. The undersigned is advised that the purchaser can probably make arrangements with the owner of the building for a lease for a term of years. The Mortgagee reserves the right to withdraw the said goods from the sale unless the price offered equals the amount under and by virtue of his mortgage.

John L. Fawcett, Solicitor for Mortgagee, Axel Anderson, Bailiff.

Government Clyde Stallion

Parties wishing to breed mares to the Clydesdale stallion purchased by the Alberta Department of Agriculture, "Craigie Masterpiece" 18297, during the season of 1920, will make application to S. G. Carlyle, Live Stock Commissioner, Edmonton, giving name and registration number of mares. A fee of \$25 will be payable at time of service and a further fee to be fixed by the Clydesdale Committee and the live stock Commissioner, will be payable when the mare proves to be in foal.

The location of the horse in the province will also be decided by this committee, and arrangements be made for the service fees in every case will cover the freight so as to equalize cost to parties residing in different parts of the province. Further particulars will be published shortly, but parties desiring to register their mares should apply at once. The stallion will likely be ready to begin the season about May 1st. The Committee and Live Stock Commissioner reserve the right to revise the list of applications and make such rules and regulations as may be deemed necessary regarding the services of this stallion.

S. G. CARLYLE,
Live Stock Commissioner.

THE LARGEST HOUSE IN THE WORLD DEALING EXCLUSIVELY IN NORTH AMERICAN RAW FURS

924 Donald St. Dept. 179 Winnipeg, Canada

Save the surface and you save all paint.

Add years to the life of your house

TIME was when the "appearance" of a freshly painted house was the only thing that counted, but now we must also realize the importance of the protection good paint affords against wear and tear. Any paint will give some protection, but if you want paint protection for years—not merely months—use B-H PAINT.

B-H PAINT 70% Pure White Lead 30% Pure Zinc Oxide 100% Pure Paint

A 100% formula (70% of which is B-H Paint) of which is B-H Paint, provides a coat of such body, brilliance and "toughness" as to defy rain, snow, wind, and all other elements. It is the cheapest paint will chip, peel and crack.

If your house is painted this B-H Paint, you have a surface-protection which renders it impervious to the decay of passing years.

You have the choice of 36 attractive colors as shown on color card which is supplied on application.

Claresholm Local News

Mrs. Barber is slowly recovering from her severe illness.

Mrs. Rutberg has been on the sick list for the last few days.

See Goldwyn Pictures at the Rex every Monday and Tuesday.

The government has a gang at work here replacing the wires with cables.

Don't forget your income tax papers. Fraser & Peck will assist you in preparing them.

Mrs. and Miss Hamblin left on Thursday night for B. C. where they will spend a few weeks' holidays.

Pauline Frederick at the Rex next Monday and Tuesday in "The Woman on the Index."

Mr. McDowell and wife arrived last week. They are staying with the brother for a few days, but will move to the farm east of town next week.

It is reported that since April 1st Pat Anderson, acting under instructions from one of his lady patrons, is watering the "dry" fish at the Claresholm Market.

On Sunday next at the Nazarene Mission Sunday school will be held in the afternoon at 2 o'clock. Preaching in the evening at 7:30 by the pastor. No preaching service in the afternoon.

Joseph Taylor of the Central Meat Market, while going to the barn to feed his horses found a pocketbook and a bank book (that is he thought he did). It being April 1st, Joe was making good time towards the stable and while passing the Milnes Block he noticed a like book mentioned. He stopped to pick them up, when they started to move across the pavement, and upon investigating Joe found out that it was April 1st and also that there was a boy on the other end of the string that held the books.

"What Phonograph Shall I Buy?"

How many times, when the subject of purchasing a phonograph or talking machine has come up, have you asked yourself this question!

The Edison tone test answers it for you, completely, convincingly.

Over two million music lovers have been present when this test was being made; and they have realized, as you will realize, that the New Edison alone can actually re-create the human voice and the music of human-played instruments.

It is all-important that you hear

The NEW EDISON

"The Phonograph with a Soul"

because it is the only instrument that re-creates the singer's voice so faithfully that the human ear cannot distinguish the rendition of the artist from that of the New Edison.

The wise way to choose your phonograph is to have the several makes of phonographs and talking machines sent to your home on trial, where you can make direct comparisons among them, and then decide which one you would like to keep—which one you think you would enjoy hearing as much five years from now as you do to-day.

Be your own salesman. Sell a phonograph to yourself. We will gladly send a New Edison to your home for the purpose, without obligation on your part.

O. L. Reinecke, - Claresholm, Alta.

Regardless how large or how small your requirements may be, it will pay you to see our stock, and get prices. :: A good stock of posts always on hand.

One year, in Canada \$2.00
 One year, to United States 2.50
 Single Copy 6c

FRIDAY, APRIL 2, 1920

During the year 1919 there were 10,000 deaths in the United States alone from automobile accidents, and doubtless many more than that were caused for life in these same accidents. Yet nobody seriously advocates a tax on anything against the motor germ! Queer world, isn't it.

French officers in Germany are either seeing things far else the enemy are double-dealing right and left with the allies. Great quantities of arms and ammunition are said to have been found where they should not be and it is reported that a stock of four millions is ready for mobilization. Evidently defeat has not changed the leopard's stripes.

March has not behaved in accordance with weather traditions this year. It came in like a roaring lion and went out the same way. The middle of March storms were the worst in years and were continued well, extending almost from the Gulf of Mexico to the Gulf. This week has brought unseasonably cold weather with considerable snow and ice in this district. While these conditions preclude good crops, they are very hard on live stock which has come through the winter in a weakened condition owing to the feed shortage.

There appears to be rather a conflict of testimony on the matter of the prevalence of crime in Canada. Within the month several advocates of prohibition have vehemently asserted that crime has almost disappeared, that our prisons are too crowded for lack of tenants, and they ascribe this condition of affairs to the efficacy of our prohibitory laws. On the other hand, in the pulp of the First Baptist church, Calgary, on Sabbath last, Rev. H. J. Hingham stated that Canada in common with other countries has been "washed into a whirlpool of vice and crime," a "carnival of crime." Rev. Hingham names a number of cities which he believes are contributing to this condition, among them: "extreme poverty on the one hand and extreme wealth and sinful luxury on the other," "laxity in the matters of justice" ("many" unfortunates in prison who should be free), "there are multitudes of criminals legally free who ought to be in prison," had influence of commercialized amusements, and a tendency to low standards of womanhood (thinks "it is time now for womanhood to rise up and to reform men to give their careful attention to the reform of their own sex," increase of the drug habit; certain classes of moving pictures (the parties "lately scored" the films which feature murders, robberies, divorces, suggestive vaudeville, and which make light of the "marriage tie"). He characterizes these films as "the greatest crime breeders of the nation." Rev. Hingham even ascribes part of the increase in crime to prohibition, in these words: "Prohibition, it is true, will make fewer crooks of those who are crooks, because they will have a clearer eye and a keener mind. So there you are, some assert that owing to liquor prohibition laws, crime has practically disappeared, while others, as trustworthy, say that our country has never been in the grip of such a "carnival of crime." Ahem! Just so. Take your choice.

MANY KILLED IN TORNA-DOES IN THE STATES

A total of nearly 20 people were killed in tornadoes which swept parts of eight states last Sunday. Hundreds more were injured and the property loss will run into many millions of dollars.

Illinois suffered much damage and many deaths and injuries. Several of Chicago's suburbs were badly wrecked. The western portion of Elgin is reported almost wiped out.

Wisconsin, Indiana, Ohio, Missouri, Alabama and Georgia are other states visited by disastrous tornadoes on Palm Sunday.

CLOSING EXERCISES OF SCHOOL OF AGRICULTURE

The school term of the School of Agriculture at Clareholm was completed on Friday, March 26. During the afternoon a Field Day was held and was well attended by the students and a number of ex-students. The many valuable prizes donated by the business men of Clareholm contributed much to the interest of the sports.

In the evening a large number of people gathered in the auditorium of the school to see the presentation of the diplomas to the successful candidates. Mr. J. C. Hooper, principal of the school, acted as lecturer and cordially welcomed all who were present on the occasion.

The chairman gave a short history of the development of the Schools of Agriculture of Alberta at Vermilion, Olds and Clareholm since their establishment in 1913 by the Honorable Duncan Marshall, Minister of Agriculture. These schools have made so successful in meeting the need of agricultural education for the boys and girls of Alberta, that the Provincial Government has found it necessary to establish three new schools at Vancouver, Gleichen and Raymond, all of which will be in operation in the fall of 1920.

During the evening a very excellent program was rendered by the Misses Ramsey, Miss Moffatt, Miss Workman, and Mr. Matson, accompanied by Mr. W. G. Moffatt.

Mr. W. J. Stephen gave the valedictory address and presented the diplomas to the successful students. The following boys received diplomas in the course of Agriculture: H. M. Baker, F. P. Birand, W. M. Dersch, A. E. Edwards, M. M. Merrill, J. R. Rogers, Mrs. W. J. Rogers, Miss Ida Larsen, was granted a diploma in Household Science, having completed supplemental examinations during the year.

Mr. E. S. Hopkins M.A., in charge of soils investigations for the department of Alberta, gave a very interesting address on "What Science has done for Agriculture." The lecturer showed what science has done in industry and along other lines. He then pointed out the marvelous accomplishments and inventions which science has given to agriculture in the relatively short period, which investigation work has been carried on in agriculture.

The chairman then announced the winners of prizes offered by the Western Retail Lumberman's Association, Winnipeg. In the department of mechanics for the best design of house, barn and farm buildings, the prizes were won by (1) F. P. Birand, (2) Wilfred Backman, (3) John R. Pearce, (4) Arthur Edwards. In the department of Household Science for the best design of farm kitchen, the prize were won by (1) Miss Velma Stange, (2) Margaret Watson, (3) Miss Nora Mundell, (4) Miss Viola Hanly. The prizes given by the Calgary Chamber of Commerce for general proficiency in dairy work together with an essay on the "Sanitary Production of Milk" were won by (1) W. S. Backman, (2) F. P. Birand, (3) J. B. Laurie, (4) Paul Matson.

The prizes won in the various competitions of the Field Day were then presented to the respective winners.

PLAY BALL! PLAY BALL!

A meeting will be held on Tuesday night at 8 o'clock in the council chambers for the purpose of organizing a baseball club for 1920. The object of the club will be to play strictly amateur ball and to join with the other towns along the line in a league. It is understood that Okotoks, High River, Nanton and Staveland are all going to play amateur ball, and a league among these five towns would make a good league.

Everybody is asked to turn out and hear the secretary's report from last season.

We have the equipment and all we need is a good live meeting in order to get the game humming and the boys warming up. Come everybody and say something about something about the game. All you ball fans are wanted at this meeting, to make the game a hummer this summer.

Some of the speakers for the evening already signed are, Ben

Walker, James Rice, W. J. McKenzie, Jersey Reid, David Callahan, Wee-Wee Moffatt, Saskatoon McKinney, Jennifer Moffatt (Grey Beard), Peg Reynolds, Wyatt, Yankee Stebbins, Artist Redfern, Prof. Rogers, O. Berg, Play Ball Amateurs, last but not least (in size) Tiny Marchion.

You're out! Next to bat!

Germans as Tricky as Ever

Paris, March 28.—Three thousand three hundred three hundred guns have been found by the inter-allied commission in the vicinity of Berlin alone, and altogether 12,000 of these guns have thus far been discovered through out Germany, as well as 6,000 airplanes intact. According to the terms of the treaty of Versailles, the German army should not have more than 24,000 guns and no airplanes whatever. These discoveries and other information in possession of the French authorities have caused considerable suspicion here.

Lutheran Services

Easter Sunday, April 4th—Divine worship in Clareholm 11 a.m., and in Clear Lake School 3 p.m.

Sunday, April 11th:—The Lord's Supper will be celebrated at the morning worship in church at 11 o'clock. A mission festival under the auspices of the Balfour Lutheran Ladies' Aid at the Clear Lake school at 3 p.m. The Y. P. F. meets in the church Sunday, 7:30 p.m.

A hearty welcome to these services.

H. G. Farland, B.A., Pastor.

An agent from the Department of Agriculture, Mr. A. W. Murphy, Lethbridge, is in the district here after the distribution of seed grain and feed for parties needing assistance. Persons requiring assistance should get in touch with him and letters addressed to him at Lethbridge will be of assistance in doing so.

The newspapers and film critics acclaimed it the most thrilling drama ever produced. See her at the Rex next Monday and Tuesday.

The third annual Social Festival will be held in I. O. O. F. Hall, Clareholm, on Thursday evening, March 25th, and Friday, March 26th. Tickets are open to the schools of Clareholm and of the surrounding rural districts. Usual admission fees.

In the Matter of the Extra Judicial Seizures Act, And in the Matter of a Certain Chattel Mortgage.

Take Notice that there will be a Public Sale (under the block) at the Town of Gramin in the Province of Alberta, on Friday the 6th day of April, A.D. 1920, at the hour of 2:30 o'clock in the afternoon, the following goods and chattels, to-wit: All the furniture, dishes, bedding and fixtures constituting the contents of the Alberta Hotel at Gramin aforesaid, full particulars and view of which may be obtained at any time on application to Axel Anderson, the Bailiff in charge. Terms of sale cash.

The undersigned is advised that the purchaser can probably make arrangements with the owner of the building for a lease for a term of years. The Mortgage reserves the right to withdraw the said goods from the sale unless the price offered equals the amount under and by virtue of his mortgage.

John L. Fawcett, Solicitor for Mortgagee, Axel Anderson, Bailiff

Government Clyde Stallion

Parties wishing to breed mares to the Clydesdale Stallion purchased by the Alberta Department of Agriculture, "Craigie Masterpiece" 18297, during the season of 1920, will make application to S. G. Carlisle, Live Stock Commissioner, Department of Agriculture, Edmonton, giving name and registration number of mares. A fee of \$25 will be payable at time of service and a further fee to be fixed by the Clydesdale Committee and the live stock Commissioner, will be payable when the mare proves to be pregnant.

The location of the horse in the province will also be decided by this committee, and arrangements will be made that the service fees in every case will cover the freight so as to equalize cost to parties residing in different parts of the province. Further particulars will be published later. Clydesdale Committee and the live stock Commissioner reserve the right to revise the list of applications and make such rules and regulations as may be deemed necessary regarding the services of this stallion.

S. G. CARLISLE,
 Live Stock Commissioner.

Save the surface and you save all Aunt Sarah's

Add years to the life of your house

TIME was when the "appearance" of a freshly painted house was the only thing that counted, but now we must also realize the importance of the protection good paint affords against wear and tear. Any paint will give some protection, but if you want paint protection for years—not merely months—use

B-I PAINT 20 Pure White Lead
 100% Pure White Lead
 100% Pure White Lead

A 100% formula (70% of which is Brandram's Genuine B. B. White Lead) providing a coat of such body, brilliancy and "toughness" as to defy rain, sun or snow, where cheaper paints will chip, peel and crack.

If your house is painted this Spring with B-I it actually has a surface-protection which is impervious to the effects of passing years.

You have the choice of 36 attractive colours as shown on color card which is supplied on application.

"What Phonograph Shall I Buy?"

How many times, when the subject of purchasing a phonograph or talking machine has come up, have you asked yourself this question?

The Edison tone test answers it for you, completely, convincingly.

Over two million music lovers have been present when this test was being made; and they have realized, as you will realize, that the New Edison alone can actually re-create the human voice and the music of human-played instruments.

It is all-important that you hear

The NEW EDISON

"The Phonograph with a Soul"

because it is the only instrument that re-creates the singer's voice so faithfully that the human ear cannot distinguish the rendition of the artist from that of the New Edison.

The wise way to choose your phonograph is to have the several makes of phonographs and talking machines sent to your home on trial, where you can make direct comparisons among them, and then decide which one you would like to keep—which one you think you would enjoy hearing as much five years from now as you do to-day.

Be your own salesman. Sell a phonograph to yourself. We will gladly send a New Edison to your home for the purpose, without obligation on your part.

O. L. Reinecke, - Claresholm, Alta.

Regardless how large or how small your requirements may be, it will pay you to see our stock, and get prices. :: A good stock of posts always on hand.

Claresholm Local News

Mrs. Barber is slowly recovering from her severe illness.

Mrs. Rutberg has been on the sick list for the last few days. See Goldwyn Pictures at the Rex every Monday and Tuesday.

The government has a gang at work here replacing the wires with cables.

Don't forget your income tax papers. Fraser & Peck will assist you in preparing them.

Mrs. and Miss Hamblin left on Thursday night for B. C. where they will spend a few weeks' holidays.

Pauline Frederick at the Rex next Monday and Tuesday in "The Woman on the Index." It's a Goldwyn Picture.

Mr. McDowell and wife arrived last week. They are staying with the brother for a few days, but will move to the farm east of town next week.

It is reported that since April 1st Pat Anderson, acting under instructions from one of his lady patrons, is watering the "dry" fish at the Claresholm Market.

On Sunday next at the Nazarene Mission Sunday school will be held in the afternoon at 2 o'clock. Preaching in the evening at 7:30 by the pastor. No preaching service in the afternoon.

Joseph Taylor of the Central Meat Market, while going to the barn to feed his horses found a pocketbook and a bank book (that is he thought he did). It being April 1st, Joe was making good time towards the stable and while passing the Milnes Block he noticed the books mentioned. He stopped to pick them up, when they started to move across the pavement, and upon investigating Joe found out that it was April 1st and also that there was a boy on the other end of the string that held the books.

BUSINESS LOCALS

THE HISTORY OF BATTLEFOR

It is only of recent years since the opening of the country by the railroads and the discovery of its wonderful possibilities, that Western Canada has found its way into the history of the world. The pioneers of the early settlers who penetrated almost unknown lands full of hope but of uncertainty of the future, the frontier, the proving of the fertility and productivity of Western soil, the transition of the prairie from its primitive wilderness to the huge productive grain areas supplying the necessities of the world—all these are almost too near our own eyes to be history. Yet there are certain localities which constitute landmarks in the glowing story of Western progress, scenes already fragrant with historical aroma, and the remembrance of early settlement with the bustle of modern industry and agricultural progress. The Battleford district is one of these.

The city of Battleford, beautifully situated where the Battle river and mighty Saskatchewan converge, was one of the earliest of Western settlements. It was the first community in the era before the railroads. It linked up Winnipeg with Calgary and Macleod on the main trail which led through what are now the prairie provinces. In 1875 it was made the seat of the North West Territories' government and Parliament continued to meet there until the penetration of the Canadian Pacific Railway further south and the consequent attraction of settlers along its route caused it to relinquish this honor in favor of the more conveniently situated town of Regina. Its name occurs frequently in the tales of early western settlement and the Battleford district was the scene of many bloody encounters between pioneers and Indians. At the battle of the town the Indian Chief Poundmaker surrendered to the Canadian Militia on May 20th, 1885, virtually closing the chapter of Canada's Indian wars.

It is in this historic district that one of the last blocks of land owned by the C.P.R. is just becoming available for settlement. It is a beautiful park area of picturesque shade trees, many upland and historical ruins. The country is admirably suited to mixed farming and the live stock industry, for its rolling slopes produce fine hay and its clumps of trees, while offering no serious obstacles to grain growing, afford shade in the summer and shelter in the winter. The soil is rich chert loam with a clay subsoil ensuring a conservation of its fertility, the conditions which make for rapid and heavy growth. Wheat is grown extensively and successfully as well as other crops. One of the chief features of the culture is fact, has been successfully carried on. Pottery raising, however, is a new and interesting growing industry whilst there is no other device local in the Western provinces.

For Rent—Good sized rooming house, close to city, furnished with beds and bedding, gas stove in every room; cheap rent. Inquire at Clareholm Bowling Alley for information. Also Bowling Alley for rent—J. Smedstad.

If you want a loan on your farm see Fraser & Peck.

MY LADY NICOTINE IN CANADA

(1) White Barley Nearly ripe, in Ontario.
(2) A Good Type of Curing Barn.
(3) Fermented Cigar Leaf from Quebec.

prices of fermented grass have given tobacco growing in Ontario a considerable impetus. The provincial Board of Agriculture, realizing this, has done valuable work in proving the Canadian industry has received a yet greater stimulus and interest.

The two principal provinces where tobacco has been successfully grown for many years are Ontario and Quebec. In the culture is becoming wider and more diversified yearly. The tobacco production of the Province of Quebec for the year 1913 was about 10,000,000 pounds and there were 22,000 acres under cultivation. As a tobacco growing area the French-Canadian province has been coming more to the fore every year. This is illustrated by the fact that in 1911 there were only 12,354 acres devoted to this culture. In the colonies of British, Joliette, L'Assomption, Moncton, Portneuf, Richelieu, Rivière, Terrebonne, Vercheres and Yamaska the industry is carried on a very large scale. There are federal government stations at Saint-Jacques de LeChapin county of Manitoba, and at Saint-Casimir, Prince Edward County with success. During the past few years the growth of tobacco in the province has been very rapid. The annual production of the variety is nearly 1,000,000 pounds, with the yearly decrease increasing. A little amount of Seed Leaf and Pure cured leaf of the heavier type is grown in certain sections. The cost of cultivation in the province including the labor of the grower has been estimated at from \$20 to \$75 per acre, and the average yield about 1,000 pounds per acre.

The increased demand, and higher prices of fermented grass have given tobacco growing in Ontario a considerable impetus. The provincial Board of Agriculture, realizing this, has done valuable work in proving the Canadian industry has received a yet greater stimulus and interest.
